

2019 PRODUCT GUIDE

Smartphone Integration

Apple CarPlay™ - Connect Wirelessly or via USB

A smarter, safer and more fun way to use your iPhone in the car. Apple CarPlay gives iPhone users an intuitive way to make calls, use Maps, and listen to music with just a word or a touch. With the latest iOS version (iOS 12.0 and higher), 3rd party navigation apps like Google Maps[™] and Waze[™] are supported.

Some features, applications, and services are not available in all areas. For details, see: www.apple.com/ios/feature-availability//#applecarplay-applecarplay

Wireless Mirroring for Android Phones

Wireless Mirroring for Android Solution for seamlessly displaying and controlling your smartphone apps on a screen without cables on select Android devices. *Selected models only

Android Auto™ - Connect Wirelessly or via USB

Android Auto was designed with safety in mind. With a simple and intuitive interface and powerful voice actions, it's designed to minimize distraction so that you can stay focused on the road. With the latest ANDROID OS version (PIE and higher), Google Maps™ and Waze™ are also supported.

Some Features, applications, and services are not available in all areas.

For details, see: www/android.com/auto

androidauto

Illumination Functions

Music Sync. with Variable Color

Changes illumination patterns according to the rhythm of the music. Illumination key colors can be preset the way you like.

Variable Color Illumination

You can choose illumination colors from one of 49 presets or customize your own color by adjusting the intensity of RGB (Red, Green, and Blue).

Sound Optimization

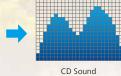

High Resolution Audio

You can enjoy playback of 96kHz/24bit audio which contains about 3 times the musical information of music CDs (44.1kHz/16bit), or even 192kHz/24bit High-Resolution Audio files with their approx. 6.5 times data volume. With high sound quality approaching the original master recording itself, you will experience the presence and ambience of a tune the way CD simply cannot.

K2 Technology for Enhanced Digital Sound Quality

K2 Technology reproduces the original master sound by upconverting frequency range and bit rate. For example, K2 up-converts a CD data to 192kHz/24bit and recreates higher resolution sound.

KZ

iDatalink Maestro

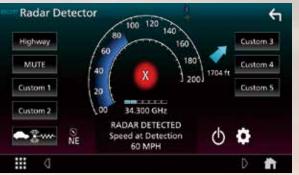

Advanced Vehicle Integration

controls, battery voltage, etc.) when connected to compatible vehicles. *Available features may vary depending on the vehicle. The iDatalink Maestro RR is sold separately by Automotive Data Solutions.

To find an authorized dealer please visit http://maestro.idatalink.com/

Radar Detector Integration

Linked to Your Life. Ready for Your Ride.

Bluetooth® Wireless Technology

When the battery of the connected Bluetooth device runs low,

a beep sound is heard and "LOW BATTERY" appears on the

JVC Streaming DJ

Connect up to 5 Bluetooth devices simultaneously, so you and your friends can take turns streaming music like a DJ. Cue up your hottest playlist and press play!

2 Phones Full-Time Connection

Bluetooth

You can connect two phones full time via Bluetooth, with secure and simple pairing.

Extra Convenience

Low Battery Information

JVC Remote Control App via Bluetooth®

Control the receiver's source directly from the smartphone using simple finger gestures with JVC's remote apps* now available for both iOS and Android. On select receivers, you can even customize your audio setting, and see detailed source information such as song title, artist name and album art etc. from the smartphone.

KW-M855BW

Digital Multimedia Receiver featuring 6.8" Clear Resistive Touch Monitor

KW-V85BT KW-V850BT LIMITED DISTRIBUTION

Multimedia Receiver featuring 6.8" Clear Resistive Touch Monitor

KW-M650BT

Digital Multimedia Receiver featuring 6.2" Clear Resistive Touch Monitor

Dynamic GUI

Big Widget

Split Widgets

Various information including time, photos, album art images, or iDatalink Maestro™ and more, can be displayed on the home screen in a big, easy-to-view way. Swiping the monitor with two fingers lets you split the screen or change the information window.

Album Art + Spectrum Analyzer Compass + Radar Detector

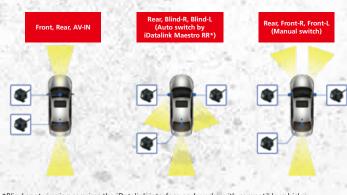

Switch Big Widget to Split Widgets

3-Camera Inputs (KW-V950BW / KW-M855BW)

Enable users to add a reverse (rear facing) camera and an additional 2 front or blind-spot cameras, further enhancing driver safety and convenience.

*Blind spot viewing requires the iDatalink interface and works with compatible vehicles.

Live Wallpaper

000

Synchronize background visual and color with music.

Shallow Chassis Design (KW-M75BT/KW-M750BT/KW-M650BT)

The reduced depth of the chassis contributes to a weight reduction and facilitates easier installation.

Common Features

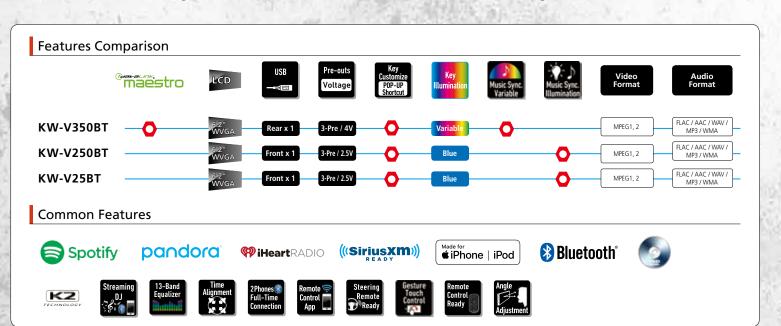

KW-V350BT

Multimedia Receiver featuring 6.8" Clear Resistive Touch Panel

KW-V25BT / KW-V250BT

Multimedia Receiver featuring 6.2" Clear Resistive Touch Monitor

Key Customize

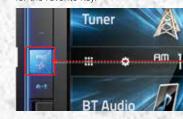

Lets you easily access frequently used functions. Two options are available.

1. Function Menu CustomizationFunctions registered in the Function Menu can easily be called up by simply pressing the "FNC" key.

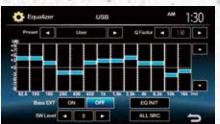

2. Favorite Key (KW-V25BT)/KW-V250BT)
Press and hold the "FNC" key to directly access the function registered

13-Band EQ

Use the 13-Band Equalizer to manually adjust the sound to your

Viewing Angle Adjustment

Adjusts the viewing angle for higher contrast and better visibility.

Gesture Touch Control

Just touch and move your finger over the screen for various operations corresponding to your finger movements. Intuitive control provides safer operation for in-car entertainment.

Time Alignment

By selecting the speaker type and the distance to the center of the listening position, the receiver will automatically adjust the timing of the sound output from each of the speakers so that the sound from each of the speakers will arrive exactly at the same time to the listening position.

The different distances of each speaker to the driver cause the delay of sound.

The Time Alignment allows you to digitally delay the closest speakers so that every speaker reaches your ears at

Music Sync. Illumination

The illumination flashes along with the rhythm of the music.

Digital Media Receiver featuring 2.7" Color Display / Waterproof (IPX6) / Global Tuner with Weather Band

Waterproof Rating of IPX6*

Withstands jets of water from any direction thanks to IPX6 waterproof compliance. As a result, the receiver can be

used not only in cars, but also in other types of motor vehicles including marine and motorsports use.

*Equivalent to IEC standard publication

Conformal Coating

A conformal coating is a protective chemical coating to safeguard electronic circuits from harsh environments that

Digital Media Receiver featuring 3" Color Display /

Conformal Coated PCB / Camera-Input

may contain moisture or chemical contaminants. It provides a barrier to airborne contaminants from the operating environment, such as saltspray, thus preventing corrosion

KD-X560BT

Rear View Camera Input Support

KD-MR1BTS and KD-X560BT are equipped with a rear view camera input. With an optional camera connected, you have increased safety while driving UTVs or marine vessels.

KD-X560BT

Just press the "CAMERA" key and the display switches to the view from the rear camera.

KD-R99MBS

CD Receiver featuring Bluetooth

Bridge(4 Ω)	90W x 2ch
Frequency Response	20Hz - 20kHz

Clear Sound with Less Distortion. High Durability with Conformal Coating.

Separated Circuit Construction

Separated circuit boards of the Pre-amp and Power-amp sections contribute to a reduction in

Variable HPF & LPF

Incorporates a rotary type HPF and LPF which enables fine adjustment. Compared with fixed type switching, more precise sound adjustment is possible to match your preferences.

Large LPF Coil

The large LPF coil provides stable, high quality sound with no distortion even when playing at

Other Features

- 2-ohm capability, bridge capability, RCA input terminal, Speaker level input capable
- Built-in variable selectable filter (12dB/ octave, variable 50-200Hz, selectable high pass, low pass or all pass)
- Terminal cover and conformal coating on PCB
- 4.9ft cable harness included for convenient installation

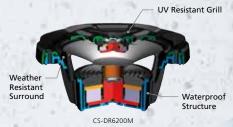

CS-DR6200M / CS-DR6201MW

6-1/2" 2-Way Coaxial Speakers featuring Water Resistant Woofers / UV Resistant Grilles / Max Power 150W / RMS Power 50W

MotorSports

Wide Opening Design

Eliminated the thin bar to give the open-minded sound.

Waterproof Design with Rich, Expansive Sound Field.

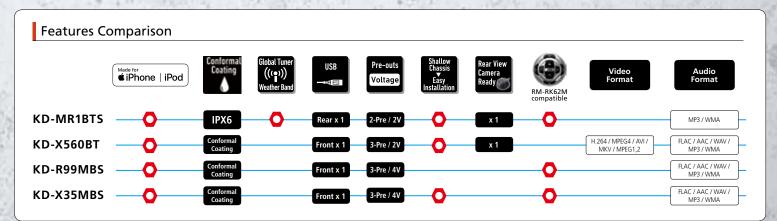

Features

- Water-resistant cone woofers
- UV resistant grilles
- Composite speaker baskets
- Stainless steel hardware • 50W RMS high power*
- Grille with a large open area

DR Series Speakers Black Edition Superior, Reliable Performance

Combines high output sound and durability. Easily upgradable from factory-installed original speakers.

High Output & Durability

Carbon Mica Cone

Rigid and lightweight carbon mica material provides highly responsive, clear and undistorted sound reproduction.

Provides detailed high range and smooth mid range. Installable vehicle types are greatly

Smooth Mid Range

SPL vs Freq

increased thanks to its shorter height.

Detailed High Range

Conventional 1.5mm hole/2.0mm pitch

Wide Grille Openings

DR Series 1.2mm hole/1.4mm pitch

Grille's opening ratio is 30% wider than the conventional model, enabling increased durability and clear sound.

Hybrid Surround

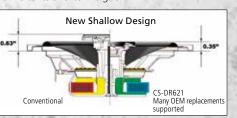

Rubber Coated Cloth with increased mobility enables high efficiency and improved follow-up to audio signals.

Small-Design Tweeter Cover

Newly developed small cover significantly reduces areas that interfere with the woofer cone. High-quality sound is assured.

Great Factory Replacement

Installable vehicle types are greatly increased thanks to its shorter height.

Full Cover Grille Design

Protects the woofer and tweeter in open installations. **Horn Ring Sound Enhancer** Improves mid-higher frequency sound character and reproduces life-like sound.

DR Series 12"/10" Subwoofers — Ultimate Deep Bass Sound & Tough Durability

Incorporates a heavy-duty 61.4 oz. magnet and a newly developed 6-layer voice coil to deliver bass and outstanding durability.

Large Magnet for Powerful Bass

Deep Bass is achieved by focusing the speakers output to a lower frequency range than most conventional subwoofers. A large 61.4 oz. magnet helps produce these powerful low frequencies.

Durable Design

Heat dissipation and power handling: A newly incorporated 6-layer copper

voice coil with aluminum former, improves heat resistance.

• Toroidal Transformer

Stable power supply is assured thanks to a large-size toroidal transformer. Its high winding density and low flux leakage improves conversion efficiency of the power. The result is natural and powerful music playback throughout the volume range.

• Enhanced GND

KS-DR3001D/DR3005D offers a copper plate for the ground. Its low resistance value reduces loss of voltage to deliver clear sound with less distortion.

• Speaker-level Inputs for Easy Installation

DR Series amplifiers feature speaker level inputs with Auto Turnon function. Installation is possible without having to detach the receiver.
